How to get KolXPD

You can download KolXPD from <http://kolxpd.kolibrik.net/>

Default licence - viewer

After new installation KolXPD works as viewer with full import features. You can import all supported types of data and open files saved by KolXPD. In viewer, it is not possible to save or export data. But you can copy to clipboard - items, data and charts bitmaps or metafiles.

Trial licence

You can acquire trial licence after installation of KolXPD in Registration window. Trial licence is for one month evaluation and is full-featured. Than it will change to viewer.

Licenses to purchase

You can buy a licence in Eshop:

- Commercial - full licence for non-academic users
- Academic - full licence for academic users
- Satellite - for second computer of particular user
- Student - significantly discounted for computers of student's own
